## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 15-18 and 21 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 15-18 recite "stem cell". However, this term has a meaning in the art distinct from "hematopoietic stem cell" and thus the claims might be interpreted as being of broader scope than claim 1 from which they depend. It is suggested that "hematopoietic" be inserted before "stem cell" in both instances. With respect to claim 21, hematopoietic stem cells are mesenchymal, but other cell are mesenchymal as well. Consequently, the claim might be interpreted as being of broader scope than claim 1 from which it depends.

Claims 1-3, 10-12, 19, 20, 22-32 and 75 are allowed.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 17 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection. Claims 17 depends from claim 1, which recites that the cell is a hematopoietic stem cell. However, there is no description in the specification as filed for a

hematopoietic stem cell which is pluripotent, i.e., able to differentiate into more than one of the three embryonic cell layers. Hematopoietic cells are committed to a later stage of development.
